COMMENT

Note: V-034 - Pin 3 of the MCP power connectors provides a signal linked to ignition. It shows an uncommon run-off time of 7:30 min after ignition off.

Vehicle manufacturer commits that all mandatory tests compliant for the vehicle configuration tested are the same implemented in all vehicle configurations declared as included in the label. Vehicle manufacturer shall declare the list of compliant optional test implemented for each vehicle configuration included in the label. Vehicle manufacturer shall declare any change impacting the result of one or several tests for each vehicle configuration using the "declaration of change" file available on ITxPT documentation center.
