DISCLAIMER		Module manufacturer shall declare any change impacting the result of one or several tests for each module configuration using the " declaration of change " file available on ITxPT documentation center. The consumption status is based primarily on the module manufacturer's declaration, since laboratory tests can only partially assess service consumption. The manufacturer hereby guarantees that its module is fully capable of consuming, i.e., subscribing to, receiving and processing data from services provided by another ITxPT-compliant module
